Overdraft Protection****

Save yourself from overdraft fees with cPort's overdraft protection options. When a check or debit is presented for payment and there are not adequate funds in your account, the following options are available to cover the necessary funds:

- **Overdraft Protection from your Savings Account:** Automatically makes a transfer from your savings to your checking to cover an insufficient funds item.
- **Overdraft Line of Credit***:** A revolving line of credit that automatically advances a loan to you so your insufficient funds item clears.

Choose the option(s) of overdraft protection and customize the order of payment that best fits your needs. Choose to overdraft to either your Overdraft Line of Credit first then to your savings account, or savings account first then your Overdraft Line of Credit. It's up to you!

*A minimum Share Deposit of \$5.00 is required to establish your membership.

**No minimum balance required to receive the bonus. To be eligible you must start a new direct deposit of net pay into your account within 60 days of opening your account. Terms and conditions subject to change. Bonus will be deposited within ten business days of your direct deposit.

***Overdraft Line of Credit is subject to credit approval.

****Fees apply for Overdraft Protection.
