

cPort Goes Red

Did you know February is heart month? On Friday, February 5th cPort staff joined millions in supporting the American Heart Association's Go Red For Women movement to help spread awareness about heart disease in women. Cardiovascular disease is the No. 1 killer of women, causing 1 in 3 deaths each year. That is approximately one woman every minute.

Staff in all five branches and even those working remotely wore their best red attire to celebrate the occasion! Visit our Facebook, Twitter or Instagram to see all the photos of our staff in red!
